

CAP PRESENCE CONTROL CT-SE / CT-CR

CAP PRESENCE CONTROL

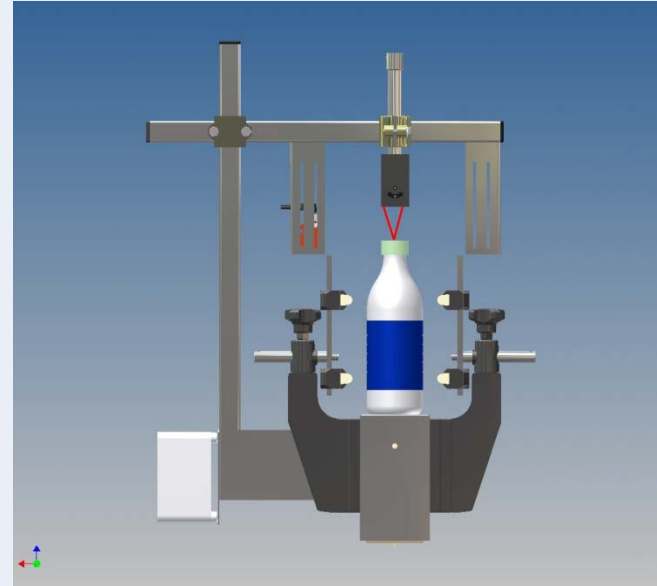

Suitable to verify:

- ❖ Cap presence control
- ❖ Total bottle counting
- ❖ Rejected bottles counting

CAP PRESENCE CONTROL

CT-SE

CT-CR

detection system using inductive or chromatic reflection
photoelectric sensors

CAP PRESENCE CONTROL

- ❖ its simply insertion and easy use allow to perform cap inspection on the conveyor or directly in the capping machine
- ❖ essential for those who need to ensure effective application of the caps, in observance with the law, at a reasonable cost
- ❖ reduction of the number of labelling machine locks
- ❖ increase of the productive efficiency
